ON TYÖTILAT, ESITTELY

**Annotations**

And here we see what the physician sees on the second instance, or what any other physician sees when they are referred a patient by someone else.

Below, the "Workspace History" and time-specific references to specific images or data (here, Day 1).

 .. sekä dokumentoinnin olennaisiksi.

**Annotations**

Images to the right are used to document the diagnostic process - for each day's text entry there is a concrete, time-specific reference to an external data source, in this case images.

This data source could be, however, any other kind of radiological functionality, such as tumor volumetric graphing and so forth.

We connect functionalities of other systems, into one workspace.]
